REACH / RoHS REGULATIONS / POPs / TSCA

Re: All Liquid Crystal Reversible Labels

The above-named products are non-electronic temperature indicators. Composition varies according to range and type. They are printed laminates composed of self-adhesive films (with modified acrylic adhesives), polyester film and thermochromic liquid crystal.

As part of our on-going commitment in ensuring that we comply with all legislative requirements, we have implemented the full requirements listed under the REACH Directive.

The products comply with REACH Annex XIV (Authorization List)

The products comply with REACH Annex XVII (Restricted List 19th June 2025)

The chemicals present are non-hazardous and comply with RoHS 3 (EU2015/863), WEE and Reach directives.

No CMR, Mutagenic or toxic to reproduction chemicals and endocrine disruptors as restricted under EU MDR Restricted materials Scope are present.

In terms of the complete SVHC list, as updated June 25, 2025, we are happy to confirm that all the named products do not contain any chemicals as listed on SVHC.

The SVHC list can be obtained at the following:

<https://echa.europa.eu/candidate-list-table>

The products do not contain any chemicals on the POPs list as updated October 31, 2024. The list can be obtained here:

[List of substances subject to POPs Regulation - ECHA \(europa.eu\)](#)

These labels do not contain any chemicals on the California Proposition 65 list. They are compliant with TSCA regulations.

PFAS chemicals are not present.

We trust that the above meets your requirements and should you require any further clarification then please do not hesitate to contact us.

Thanking you in advance

Yours sincerely

Jason Symons
Quality Manager
